前言 FOREWORD

Modern schooling has transformed dramatically over the last two decades. The pressure for greater student outcomes has led to innovation in both teaching and the learning environment it occurs in.

However planning, designing and refurbishing learning spaces can be a long and often expensive journey for schools and Universities.

How to carry the ideal of education with space, and enrich the connotation of space with education?

Let the design meet the learning of the 21st century!

在过去的二十年里，教育发生了翻天覆地的变化。

随着这样的变化，也迫使着教育环境需要不断创新变革。

然而，对学校来说，规划、设计和改建是一段需要投入大量时间和成本的旅程。

如何用空间承载教育理想，用教育丰富空间内涵？

让设计真正去实现21世纪的学习

EVENT AT A GLANCE 精彩聚焦

WELCOME TO DECIGNS / 欢迎来到全球教育空间设计者大会

GETTING STUDENTS OUT INTO THE WORLD

Personalized learning tailored to the needs of individual students, coupled with group projects, is taking hold in the world's schools.

In terms of school design, no single template has taken hold, but one thing is certain: long, double-loaded corridors are a thing of the past.

Designing schools that can accommodate the pedagogy of today and the teaching styles of tomorrow is an educated guesswork.

让学生走出学校，走进世界！

个性化学习，小组式学习，项目制学习正在全世界蔓延扎根

如何设计学校，没有统一的答案，但有一件事是肯定的：呆板沉闷的教室布局已经成为过去式匹配满足当下及未来的教育理念和风格，才是设计师和教育者们应该去探索的。
